Over the past few years, millions have reported lingering health problems after COVID-19 infection or vaccination — from neurological issues and heart irregularities to vision changes that conventional medicine has struggled to explain. Today I'm speaking with Jen Dhillon, a researcher and electronic homeopath, who helped develop what's called the Homeopathic Spike Detox protocol, or HSD — a therapy designed to help the body clear residual spike protein and restore normal immune and cellular function.

I had a fascinating conversation with Kevin DeMeritt, Founder of Lear Capital, about gold, silver, and what investors should be paying attention to right now. If you're curious about protecting your wealth and learning where the market is headed, you won't want to miss this discussion.
